PREFACE TO THE LETTER W.

THE words with initial W here treated include 6,087 Main words, 2,845 Special Combinations explained and illustrated under these, 3,766 Obvious Combinations, and 3,820 Subordinate entries; in all 16,518 words. Of the Main words 1,780 are marked † as obsolete, and 42 are marked ‖ as alien or not completely naturalized. The number of illustrative quotations for the whole letter is 94,097.

The following table illustrates the scale of this portion of the work as compared with that of certain other Dictionaries :—

	Johnson.	Cassell's 'Encyclopædic' with Suppl.	'Century' Dict. with Suppl.	Here.
Total of words recorded in W	1,024	5,212	7,403	16,518
Words illustrated by quotations	882	2,066	2,501	12,951
Number of illustrative quotations	4,147	3,512	7,595	94,097

The number of quotations in the corresponding portion of Richardson's Dictionary is 3,790.

The letter W is primarily remarkable for containing two long series of words of which the initial letters are one or other of the consonantal digraphs WH and WR. The words beginning with WH cover 102 pages, those with WR 63 pages. Separate articles on the digraphs themselves will be found in the proper alphabetical places, explaining their history, currency, and use. Originally they both represented a combination of two sounds, which were subsequently simplified. Otherwise, with the exception of the combination WL (which did not survive into Modern English), initial W is capable of being immediately followed only by a vowel; of the combinations of W with a vowel, WA yields by far the largest vocabulary.

This letter is conspicuously native. The greater part of the vocabulary goes back to Old English, with a continuous history down to the present day. *Water*, with its compounds and derivatives, fills 90 columns; *well* (sb., adj., vb., adv.) another 90; next in copiousness are *wash*, *way*, *white*, *will*, *wind*, *with*, *wood*, *work*, *write*. In *wh-* the interrogative-relatives *what*, *which*, *who*, *why*, etc., fill over 80 columns. All these words have cognates in West Germanic or in Common Teutonic; some have wider connexion with Indo-European. Two common words, *woman* and *worship*, are compounds peculiar to Old English. There is a large number of early adoptions from Scandinavian, notable among which are *wand*, *want*, *wassail*, *weak*, *whirl* and *whirl-wind*, *window*, *wing*, *wrong*. Dutch and Low German contribute *waft*, *wagon*, *wainscot*, *walrus*, *welter*, *wriggle*, *wrack* (sb.[2]). From Old French come a good many words, chief among which are *wage*, *wait*, *war*, *warden*, *warrant*, *waste*, *wreck*; some of these have doublets in *g* (as *gage*, *guardian*); all are ultimately of Teutonic origin. From American Indian tongues we get *wampum*, *wapiti*, *wigwam*; from Australian, *wallaby*, *waratah*, *wombat*, *wurley*. The number of entries of proper names and appellatives derived therefrom is remarkable; they amount to well over a hundred.

Voluntary work on the letter began as far back as 1881. Mrs. L. J. Walkey arranged the original material for *Wa* and *We* alphabetically and chronologically during 1881–1884; the same was done for *Wh–Wy* in 1882 by Mr. H. S. Tabor, who also combined the old and new series of slips for *Whe–Wy* in 1882–1884. *Wa–Wha* was handled by the Rev. W. H. Beckett during 1882–1901; *Wh–Wy* was sub-edited by the Rev. G. B. R. Bousfield in 1891–1894, and *W–Wi* (with abundant additions of new material) by the Rev. W. B. R. Wilson in 1913–1919.

During the editorial progress of the letter, which began in 1919, outside help has been given in the reading of proofs by the Misses Edith and E. P. Thompson for the greater part of the letter, by Mr. G. R. Carline and the Rev. W. B. R. Wilson for some early portions, by Dr. G. F. S. Friedrichsen for *Wh–Worling*, and by Dr. G. Ch. van Langenhove and the Rev. J. B. Johnston for *Wr*. Assistance in the verification of quotations in the British Museum was given by the late Mr. W. W. Jenkinson, by Mr. R. J. Whitwell, and (latterly) by Mr. F. S. Sieveking. Mr. Whitwell, as heretofore for many years, has made generous contributions to the historical evidence for many articles. Expert outside assistance on special points has been given by Mr. R. Ashton, librarian at Blackburn, Mr. St. Clair Baddeley, Professor Paul Barbier of Leeds, the late Mr. A. F. Bettinson of the National Sporting Club, Mr. E. C. Early of Witney, the Editor of the *Field*, Professors Fiedler, Neville Forbes, and G. S. Gordon of Oxford, Mr. F. W. Geary, secretary of the Thames Conservancy, Dr. Alfred Götze of Giessen, the Rev. Dr. Claude Jenkins, Lt.-Col. J. H. Leslie, Mr. John Lister of Shibden Hall, Halifax,

Mr. R. G. Marsden, Mr. Hugh Marwick, Orkney, Monsieur A. Meillet, the Provost of Oriel, Sir Frederick Pollock, Col. E. H. Richardson, the late Mr. W. H. Stevenson, Monsieur Antoine Thomas, Dr. E. J. Thomas of the University Library at Cambridge, and Mr. F. H. Wedgwood. To these grateful acknowledgement of obligation is due, as well as to Bodley's Librarian and his assistants, whose ready and generous help has greatly facilitated the extensive researches imposed upon the Dictionary staff.

The editorial staff regularly engaged on the letter W consisted of three sections: four members associated with Dr. Bradley until his death, viz. Mr. Walter Worrall (who specially prepared portions of *We* and *Wo*), Mr. W. J. Lewis, Mr. H. J. Bayliss, and Miss E. S. Bradley; three belonging to Dr. Craigie's staff (engaged mainly on *Wr*), viz. Mr. G. Watson, Mrs. L. F. Powell, and Miss Rosfrith A. N. R. Murray; and three belonging to Mr. Onions's staff, viz. Mr. A. T. Maling, M.A., Mr. F. J. Sweatman, M.A., and Mr. J. W. Birt. To them the editors make cordial acknowledgements for their zealous and painstaking collaboration in a task which, in the demands that it makes for consistency and accuracy in principle and in detail, is hardly equalled and not surpassed in any field of research.

The history of the preparation of this letter is marked by two outstanding events, the death of Dr. Henry Bradley, the then senior editor, on 23 May, 1923, and the appointment in 1925 of Dr. Craigie to a professorship in the Department of English of the University of Chicago, which did not, however, withdraw him from taking part in what then remained to be done to complete the work. These events, together with the allocation (since 1921) of some part of Mr. Onions's time to collateral works, have been contributing factors to a delay which has, however, in the sequel, the happy result that the publication of the concluding pages of the work falls in the year of the fiftieth anniversary of its first association with the name of James A. H. Murray as editor under the auspices of the Delegates of the Clarendon Press.

W.

W (dʌ'b(ə)l,yū), the 23rd letter of the modern English alphabet, is an addition to the ancient Roman alphabet, having originated from a ligatured doubling of the Roman letter represented by the U and V of modern alphabets. When, in the 7th c., the Latin alphabet was first applied to the writing of English, it became necessary to provide a symbol for the sound (w), which did not exist in contemporary Latin. This sound, a gutturally-modified bilabial voiced spirant, is acoustically almost identical with the devocalized (*u*) or (*u*), which was the sound originally expressed by the Roman U or V as a consonant-symbol; but before the 7th c. this Latin sound had developed into (*v*). The single *u* or *v* therefore could not without ambiguity be used to represent (w), though this was occasionally done, and in some Northumbrian texts was the regular practice. The ordinary sign for (w) was at first *uu*, but in the 8th c. this began to be superseded by *p*, a character borrowed from the Runic alphabet, in which its name was *wyn* (Kentish *wen*). Eventually the use of *p* became almost universal, but in the mean time the *uu* was carried from England to the continent, being used for the sound (w) in the German dialects, and in French proper names and other words of Teut. and Celtic origin. In the 11th c. the ligatured form was introduced into England by Norman scribes, and gradually took the place of *p*, which finally went out of use about A.D. 1300. The character W was probably very early regarded as a single letter, although it has never lost its original name of 'double U'.

In OE. the sound (w) occurred initially not only before vowels but also before (l) and (r). The combination *wl* became obsolete in the 15th c. (in Sc. poetry *wlonk*, alliterating with *w*- words, was used in the 16th c.); *wr* is still written, but the *w* is silent in standard English, though in some dialects it is sounded as (w) or as (v). OE. had also the initial combination (hw), written *hu(u, hp*, and subsequently *Ph, wh*; for the later development of this phonetic combination, and the history of the associated symbols, see WH.

The chief etymological sources of the Eng. (w) are 1 (1) OE. (w), mainly representing Indogermanic *w, gh*, *kw*, or *k*; (2) ON. (w) of the same origin (in cited words expressed by *v*, according to Icelandic usage); (3) OF. (w), retained in north-eastern Fr. dialects, but elsewhere becoming (gw) and ultimately (g), whence in English such doublets as *wage* and *gage, warranty* and *guaranty*. The sound also occurs, represented otherwise than by *w*, in words of Latin origin containing the combinations *qu* (kw) and *su* (sw), as *question, suavity, persuade* (in 16–18th c. often written with *zw*); also in a few Fr. words, as *reservoir* (-vwAr).

So far as it remains a consonant-symbol, the letter never denotes any other sound than (w), but in a few words it has ceased to be pronounced, though still written, as in *answer, sword, two*, and in the combination *wr* referred to above. In the unstressed second element of a compound, (w) tends to be elided in colloquial speech. This contracted pronunciation is in some words a mere vulgarism (marked as such by spellings like *backard, forrard, allus* for *always*); in *Norwich* and some other place-names in *-wich* it is the only one regarded as correct, and the same may be said with regard to the nautical term *gunwale*; in *midwife* the contraction (mi'dif), formerly general, is now rarely heard. The tendency to elision of *w* beginning an unstressed second syllable is shown also in the change of *housewife* into *hussif, hussy*, where the spelling has followed the pronunciation, though the uncontracted form is now restored exc. in a special disparaging sense.

In some ME. MSS. (northern and north midland), and in many Scottish texts of the 15th and 16th centuries, *w* is written for *v*, and vice versa. In the 16th and 17th c., books printed from continental type often have the letter in the divided form VV, vv.

In ME. a new (w) arose from the development of intervocalic or final (γ), inherited from OE., as in *bowe*:—earlier *boȝe*:—OE. *boga*. This sound, however, has not survived as a consonant, because every (w) after a stressed vowel became a *u*-glide, the terminal element of a diphthong. From the early ME. period *w* was often substituted for *u* in vowel-digraphs (whether denoting diphthongs or simple vowels). In modern spelling *aw, ew, ow* are phonetically equivalent to *au, eu, ou*, though *ow* never stands for (ū), as in the older *yow* = *you* (except in the surname Cowper); the choice between *u* and *w* has been determined to some extent by etymological tradition, but is mainly arbitrary; at the end of a word *w*, not *u*, is used all but invariably. The traditional statement of grammarians that 'W is a vowel as well as a consonant' refers to its use in these digraphs; but in the 14–15th c., and in Sc. also in the 16th c., *w* occasionally represents (ū), as in *trwe* = true, *swne* = soon, *swth* = sooth.

In south-eastern dialects (*w*) is regularly substituted for (*v*) in many writers of the first half of the 19th c. attributed to the Cockney dialect the habit of misusing (v) for (w) and (w) for (v) on all occasions. No trace of this survives in present-day London speech; and although there is no doubt that the Kentish (w) for (v) at one time extended to London, it is probable that the reverse substitution was merely an occasional (if perhaps rather frequent) result of the endeavour to speak correctly.

1763 FOOTE *Mayor of G.* I. (1784) 21 *Sneak.* Yes, worry like Wenus. 1803 PEGGE *Anecd. Engl. Lang.* (1814) 77 The.. most offensive error in pronunciation among the Londoners ..lies in the interchangeal use of the letters *W* and *V*, ever to be heard where there is any possibility of inverting them. Thus they always say, *We'al*, instead of *veal*; and *Winegar*, instead of *vinegar*; while, on the other hand, you hear *Vicked*, for wicked—*Vig*, for wig; and a few others. 1809 T. HARRAL *Scenes of Life* III. 26 'I last night thou gavest me to a villain's arms!'—'A villain?' ..'Ay, a villain!' 1837 DICKENS *Pickw.* xxxiv, 'Do you spell it [Weller] with a "V" or a "W"..' I spells it with a "V"..' Quite right too, Samivel.. Put it down a we, my lord'.. 1844 T. H. KEY *Alphabet* 107 London too is remarkable for the confusion of the sounds, though this confusion does not seem to arise from any inability to pronounce either a *w* or a *v*, each being substituted for the other with a most amusing perversity.

A mispronunciation of (w) for (r), in some persons due to a physical defect, has sometimes been a fashionable affectation.

1837 DICKENS *Pickw.* xxxv, 'Gwacious heavens!' said his landlady. 'I thought somebody had seen the new mail-cart; it's the neatest, pwettiest, gwacefullest thing that ever was.' 1844 T. H. KEY *Alphabet* 93 The letter *r* is at times confounded with *w*. Thus it is not a very rare variety of articulation that *rubbish* is pronounced *wubbish*.

Wagon, waggon (wæ·gən), *sb.* Forms: 6 **wagan**(**e**, **waghon, wagen**, 6–7 **waggen**, 7 **waggin**-, **wagon**, **waggon**. [Early mod.E. *wagan, waghen*, a. Du. *wagen* (formerly also written *waghen*) = OE. *wægn* WAIN.

In Du. (as in Ger.) *wagen* has always been the most general term for a wheeled vehicle; in the 16th c. it was adopted into Eng. in this wide sense (see 2 below) as well as in the specific military application (sense 1) learned in the continental wars.

The Eng. dicts. of the 18th c. have the spelling *waggon*, exc. Johnson, who gives *wagon* without remark, though all his examples have *waggon*. Todd 1818 prefers *wagon* for etymological reasons, but says that *waggon* is the prevailing form. Webster 1828 prefers *wagon*, remarking that 'the old orthography, *waggon*, seems to be falling into disuse'. Smart 1836 gives *waggon* as the current form, and *wagon* as 'a disused spelling'. Stormonth 1884 and Cassell 1888 have *waggon, wagon*; later dicts. *waggon* either alone or in the first place. In Great Britain *waggon* is still very commonly used; in the U.S. it is rare.

The Eng. word has been adopted in Fr. as *wagon, wagon* (vagõ) in the sense of 'railway coach or carriage', a meaning which is now obsolete in Eng. (see quot. 1847 in sense 5*b*). So also G. *waggon* (pronounced as Fr.).]

Flemish *waegheschot*, *waeghenschot* (Kilian), WFlemish *wageschot* (De Bo), Da. *wagenschot*, WFris. *wagenshot*. The synonymous Flem. or Du. *wandschot* (Kilian), which may be the source of some of the Eng. forms, is either an etymologizing perversion of *wagenschot* or an independent formation on *waand* wall of a room. The Eng. examples of the word are earlier than those given in the MLG. and MDu. dicts., and the first element appears already in the earliest instances assimilated to the Eng. WAIN *sb.*1

The etymology as above stated does not clearly account for the meaning, and there have been attempts to explain the first element differently. Kilian (1598) identifies it with Flem. *waeghe* wave, taking the word to refer to the undulation in the grain of the wood. Some modern scholars regard it as an alteration of MDu. *weeg* wall (= OFris. *wâch*, OE. *wâh*, Woden). These suggestions are however open to strong objection, and the probability is that the first element is really *wagen*, though the original meaning of the compound remains for the present obscure.)

ON. *veifa* (Norw. *veiva*) wave, swing (trans. with obj. in dat.; also rarely refl.), corresponding to MDu. *weiven* to wave, swing, also (= mod.Du. *wuiven*) to beckon, signal (? whence Weave *v.*[2] *Naut.*), and OHG. *-weiben* (in *ziweiben* to destroy, disperse, *ungeweibet* unbroken):—Otteut. **waiþjan*. A parallel formation, OTeut. **waiþōjan*, is represented by OHG. *weibōn*, MHG. *weiben*, to move hither and thither, wander, waver; these senses (cf. Icel. *veifa* to wave, though not recorded, have belonged to the ON. word. The root, OTeut. **waiþ-*:—Indo-Eur. **weip-*, is a variant of OTeut. **waip-*:—Indo-Eur. **weiH-* as in *L. vibrāre* (see Vibrate *v.*). Both these roots are represented, with the general sense to wave or swing, to shake, both in Teut. and other groups, but to a different extent in each of which branch of language it has a variant with prefixed *s*: see Sweep *v.*, Swift *a.* (The Indo-Eur. **weip-*, **weiH-*, to wind, represented, e.g. by OE. *tōfōn*, Goth. *biswaiƕan* to grasp, touch, is probably unconnected.)

In some contexts it is difficult to distinguish between *waive v.*[1] and *v.*[2], especially some shades of meaning may have originated from confusion between the two. See also Wave *v.*, the relations of which to this verb are to some extent uncertain.

1. *Law.* The action or an act of waiving; dispensing with a requirement, an express or implicit declining to avail oneself of a known right or to assert a claim.

1628 Coke *On Litt.* § 60c. 348 b. It appeareth, that the right of the Estate taile discending to him either within age, or of full age, shall worke a Remitter in him, for that the waiuer of the state should haue bin to his losse and preiudice. 1673 Shepard *Grand Abridgem.* iv. 292 This word Waiver is sometimes applyed to an Estate, or something that is made or conveyed to a man, and so it signifieth nothing else but the Refusal to accept of the thing so made and conveyed. And sometimes it is applyed to a plea, and then signifieth a Refusal to stand to a former Plea pleaded, and the pleading a new. 1741 T. Robinson *Gavelkind* vi. 126 But the Court held, that the Parol ought not to demur, for that the Infant is out of Court, and by the Waiver the Original is determined against her. 1828 Brougham *Sp. b. Comb.: **waiver clause,** a clause in the prospectus of a joint-stock company, by which the subscribers are made to contract themselves out of the provision of the Companies Act requiring that the prospectus shall contain certain particulars respecting the contracts made with the promoters.

1895 *Pall Mall Gaz.* 5 Dec. 3/3. 1899 *Westm. Gaz.* 16 Oct. 10/2 It is becoming quite refreshing to find a prospectus without the objectionable waiver clause.

3. The watching (*esp.* by night) of relatives and friends beside the body of a dead person from death to burial, or during a part of that time; the drinking, feasting, and other observances incidental to this. 4. The vigil of a festival (and senses thence derived).

In this use *wake* is a translation of Eccl. L. *vigilia*, primarily referring to the rule of the early church that certain feast-days should be preceded by services lasting through the night. When this rule had ceased to exist, the vigil continued to be a pretext for nocturnal festivity, and the use of the word *wake* was extended to denote not only the eve but also the feast-day itself, and the whole period during which festivities continued.

a. The vigil or eve of a festival, and the observances belonging to this. Also, a festival. *Obs.* exc. *dial.*

b. The local annual festival of an English (now chiefly rural) parish, observed (originally on the feast of the patron saint of the church, but now usually on some particular Sunday and the two or three days following) as an occasion for making holiday, entertainment of friends, and often for village sports, dancing, and other amusements.

Wake (wēk), *sb.*[2] Also 6 ? **walk**, ? **wack**. [Not found before the 16th c., but possibly much older; either directly or mediately a. ON. (**vaki*) *nph* str. fem., *vaka* wk. fem., hole or opening in ice.

The ON. word was probably applied to the path made for itself by a vessel through ice, and from this use the sense 'trace or track of a vessel in the water' may have been developed by Scandinavian navigators in British seas. Sense 5, 'line of hay', if it really belongs to the same word, may be a transferred use of the nautical sense.

The word is represented in all the Scandinavian dialects, and has been adopted in Du., Fris., and Ger. The sense 'track of a vessel' is found, outside Eng., only in Norw. *vak* (dial. *vaak*), NFris. (Sylt) *waak*; the older sense, 'hole or channel in ice' (sometimes, 'a piece of water kept unfrozen by wind or current'), belongs to MSw. *vaak*, mod. Sw. *vak* (cf. Sw. *tråcka* to cut a hole in ice), Norw. *vak*, Da. *vange*, WFris. *wek*, *wjek*(*ke*), Du. *wak* neut., MLG., LG. (whence mod.G.) *wake* fem.

The word is commonly supposed to be connected with ON. *vpk-r*, Da. *vaad*, moist, damp: see WAK *a.* This view involves some difficulty, as the ON. adj. has the stem *vpkv-*, while the sb. has genit. *vakar*, pl. *vakar*, *-ir*. Connexion with WAKE *a.* and *v.* seems not impossible: the freezing of the water from ice may have been regarded as a waking of it.

[Two distinct but synonymous verbs from the same root coalesced in early ME.:

(i) The strong verb OE. (? *wæcnan*), *wōc*, *wōcon*, **wacen*. (The present-stem is wanting, unless it be presented by *wæcnan*: see WAKEN *v.*) The strong pa. t. is found only in English; the strong pa. pple., not recorded in OE., but found in later periods, occurs in ON. *vakenn*, and as adj. ('awake') in MSw. *vakin*, Sw., Norw. *vaken*, Da. *vaagen*; NFris. *waaken* is prob. from Scandinavian.

(ii) The weak verb OE. *wacian*, corresponding to OFris. *wakia*, *wakie*, OSax. *wakōn*, *wekkiu*, NFris. *waake*), OHG. *wahhēn*, *wachēn*, *-in* (MHG., mod.G. *wachen*), ON. *vaka*, pa. t. *vaka* (Norw., MSw., Sw. *vaka*, Da. *vaage*), Goth. *wakan* :—OTeut. **wakējan* (whence also the OE. doublet *wacian* WATCH *v.*), or to OS., OLow Frankish *wakon* (MDu., Du., MLG., LG. *waken*), OHG. *wachēn* :—GTeut. **wakōjan*.

The Teut. root **wak-* 'be awake', in Goth. *wakuls* wakefulness, and, with different sense, in Goth. *wakrs*, OE. *wacor*, ON. *okr* growth, increase, usury: see OCKER *sb.*) represents a pre-Teut. **wog-*: **weg-* (cf. L. *vegēre* to rouse, excite, also intr. to be lively or active, *vegēt-* to be vigorous, *vegēt* beneficial, Skr. *vājas* neut. vigour: perh. to be referred to the Indo-Eur. root **aiwĝ-*, represented by L. *augēre*, Goth. *aukan* to increase, OE. *éacen* to grow (see EKE *v.*), and with *-s* extension by Gr. *αὐξάνειν* to increase, OTeut. **wagx-* to grow (see WAX *v.*).

In OE. the strong verb had probably the sense 'to become awake', though this is evidenced only in the compound *on-wæcnan*, the simple verb being found only in the sense 'to come into being', which may either be a figurative use of the sense 'to awake', or represent a different application of the original wider sense of the root. The weak verb had the static sense 'to be or remain awake'. In ME. the strong and weak forms came to be used indiscriminately in both senses. Out of the sense 'to become awake' there was developed a causative sense, 'to rouse from sleep', in which the word superseded WECKEN (OE. *wæcnan* :—OTeut. **wakjan*). The sense 'to remain awake, watch' gave rise to a transitive use = 'to watch

(over)'; but in the modern Eng. period the static sense, both intr. and trans., has become almost obsolete, the usual meanings of the word being 'to become or cause to become awake'.

The mod. pa.t. *woke* (*wōk*) does not regularly represent the OE. *wōc*, which would have rhymed *wook* (*wuk*). Apparently the mod. *woke* is a new formation or modification on the analogy of *broke*, *spoke* (for the irregularity in the vowel cf. *stone* pa.t. of STAVE v.). What this name is uncertain; for in ME. and prob. in early mod.E. the spelling *woke* represents the regular phonetic descendant of the OE. *wōc*. The pa. pple *woken* has always been rare, and now survives only in dialects in adjectival use. From the 17th c. onwards the forms *woke*, *woken* (after *broke*, *broken*, *spoke*, *spoken*, etc.) have been more or less current for the pa. pple.; *woken* seems obsolescent, but *woke* is at least as frequent as *waked*. The strong forms either of pa. t. or pa. pple. are found in Shake., the Bible of 1611, or Milton's verse.]
